2019 Annual Guide

Showcasing 91 of Maine's
most collectible artists

“Love of the ocean, sailing, artwork from around the world, and a passion for travel tie us together. In this room, the designer, the client, and the artist worked together in a beautiful dance that is realized in this open and airy room by the sea. The room’s doors open wide to the sun and salt air off Portland harbor. What inspired me with this room is the client, with whom I’ve been working for over ten years and who is like family to me. This room is a celebration of the client’s free spirit, of a lifetime of memories, of her art and artifacts from world travel as well as an anchorage to call home. This room was a delight to work on, the sort of room that results when designer, client, and artist play in symphony to the sea.”
 —**BRETT JOHNSON, MAINE STREET DESIGN COMPANY**
